Table of Contents: Volume 4

Number 1

Scheduling Tasks and Vehicles in a Flexible Manufacturing System 5
... *Jacek Blażewicz, H.A. Eiselt, G. Finke, Gilbert Laporte, and Jan Weglarz*
Performance Management in Flexible Manufacturing Systems 17
..... *Paul J. Schweitzer, Abraham Seidmann, and Paulo B. Goes*
Selecting Technology for Investment in Flexible Manufacturing 51
..... *P.L. Primrose and R. Leonard*
Production Activity Control: A Practical Approach to Scheduling 79
..... *James Duggan and Jim Browne*
Contributing Authors 105
Instructions to Authors 109

Number 2

Part Input into a Flexible Flow System: An Evaluation of Look-Ahead Simulation and a Fuzzy Rule Base ..... *Robert M. O'Keefe and Rajesh Rao* 113
A Recursion Model for Cellular Production/Assembly Systems 129
..... *L. Wang and W.E. Wilhelm*
An Architecture for a Shop-Floor Controller Using Colored Petri Nets 159
..... *Mohsen A. Jafari*
An Iterative Approach to System Setup Problems in Flexible Manufacturing Systems ..... *Yeong-Dae Kim and Candace Arai Yano* 183
Contributing Authors 211
Instructions to Authors 213

Numbers 3/4

Work Flow Control in the Flexible Flow Line 217
..... *Richard H. Deane and Seok Hwan Moon*
Cutting-Tool Management in Computer-Integrated Manufacturing 237
..... *Dharmaraj Veeramani, David M. Upton, and Moshe M. Barash*
Evaluating the Design of Flexible Manufacturing Systems 267
..... *Udayan Nandkeolyar and David P. Christy*
A Concurrent Development Tool for Flexible Assembly Systems 293
..... *Irving J. Winters and Michael C. Burstein*
A Decision-Making Approach to the Operation of Flexible Manufacturing Systems 309
..... *George Chryssolouris, James E. Pierce, and Kristian Dicke*
Sequencing of Parts and Robot Moves in a Robotic Cell 331
..... *S.P. Sethi, C. Sriskandarajah, G. Sorger, J. Blazewicz, and W. Kubiak*
Contributing Authors 359
Instructions to Authors 365
